

WATERS PIERCE

State of Texas Wins In the Case of Receivership In the Third Court of Appeals.

Austin, Texas, June 29.—The attorney general was sustained at every point by the third court of appeals in the Waters-Pierce oil receivership, but the two judges sitting disagreed as to how the state shall secure relief. The attorney general's construction of the new receivership law was adopted, but Chief Justice Fisher would not go to the extent of ordering Eckhardt to take charge and direct Dorchester, the federal receiver, to relinquish hold. Judge Fisher thought that the proper way for the state to secure relief would be to go before Judge Bryant with the necessary applications and proceedings, reviewing what has been done below, etc., and ask him to remove his own receiver, Dorchester, pending a final decision in the state courts.

Judge Key agrees to all of that, but goes further and holds that this court has the right under the law to appoint its own receiver and order him to take charge of the property, notwithstanding the federal court proceedings appointing Dorchester. Judge J. A. Eldson, the third member of the court, is curiously ill at his home in Hamilton, therefore the question of going to the extent indicated by Judge Key is really in abeyance until Judge Eldson is able to return. Should he decide with Judge Key then the court would issue an order appointing its own receiver with instructions to take charge of the property, which would make two receivers for the company unless Judge Bryant enforced his order or receded from it.

REPUBLICANS TO FIGHT STATEHOOD

Decide to Present No Statement to the Committee Appointed by President—Seeking a Judge Who Will Grant Writ of Supersedeas in the Injunction Cases.

Capital Special. Guthrie, Okla., June 29.—The republican committee named by State Chairman Hamon held a meeting here yesterday to consider the framing of a statement setting forth to the committee of constitutional convention delegates, recently designated for this purpose by President Murray, the alleged errors in the legislative apportionment. It was finally decided tonight not to participate in a conference. A statement setting forth their reasons for refusing to comply with Murray's request, will be drawn up today and released for publication Sunday. This action by the committee is considered a victory for the Governor Frantz forces, which opposed giving any aid toward correcting the alleged error.

member either of the United States supreme court or of the United States circuit court of appeals a writ of supersedeas, which will hold permanent the injunction, recently dissolved by the Oklahoma supreme court, preventing an election. As the United States supreme court will not convene again until in October, the chances for an election on the constitution, in case Messrs. Noah and Snoddy are successful, would be slim. Mr. Snoddy is still here but Mr. Noah left the city last night, presumably for St. Louis or Washington to attempt to get the writ.

TO STOP ELECTION.

Republican Attorneys Trying to Secure Writ of Supersedeas. Capital Special. Guthrie, Okla., June 29.—It was learned last night from excellent authority that attorneys Noah and Snoddy, of Alva, who represent the people of Woods county in the case against the constitutional convention in protesting against the division of organized counties in Oklahoma territory, are confident of preventing an election on the proposed state constitution so long as it contains this alleged objectionable clause, and that their confidence rests in their plan to obtain from a

TREASURY NOT NEARLY EMPTY

Capital Special. Washington, June 29.—The treasury of the United States is in a far better condition than it was believed it would be at the beginning of the fiscal year, which legally expires at midnight tomorrow night. Then it was estimated that the surplus would be about \$25,000,000. Instead, the total for the year will be in the immediate neighborhood of \$75,000,000, or more than a dozen times as much as the surplus for the previous fiscal year, which was a little over \$6,000,000.

This increase is opportune, since the four per cent bonds which mature tomorrow be in part redeemed in cash. These bonds aggregate \$30,000,000 and will be redeemed by the secretary of the treasury on and after Monday. A considerable portion of this sum will be received from the national banks as the result of a call for \$30,000,000 of government deposits, payable July 10. This sum represents special deposits made September 27, 1906, and of the total New York banks hold about \$6,000,000. Altogether, the financial outlook is considered favorable by the treasury officials. Early in the fiscal year of 1906 there were numerous predictions of a deficit which were not realized. This year, the conservative estimates of the surplus are realized three-fold. The strong boxes of Uncle Sam are bulging with gold and the government at Washington still lives.

Speaking of Watches

the smallest, latest, best made little watch—a nickel covers it—ever produced in this country has just been put out by the Waltham Co., contrary to the usually accepted idea it is serviceable and accurate. While higher in price than larger ones, still it is within your reach, \$45.00 to \$75.00, according to case used. This is just one item from the largest and most complete stock of good time pieces in the entire south-west.

PECK SUCCEEDS COL. SHEPHERD

Capital Special. Guthrie, June 29.—Cassius R. Peck, of Pawhuska, has been appointed by Secretary Garfield of the interior department as the successor of Col. C. O. Shepherd on the Osage plotting commission. Col. Shepherd was removed as the result of an investigation of alleged extravagance and will return to Muskogee to renew his work as a townsite agent for the government. He has been succeeded as chairman of the allotting board by Dr. C. B. McClesney and Peck takes McClesney's place. The other member of the commission is Black Dog, ex-chief of the Osage Indians.

Cassius R. Peck, the new member of the commission, is a young Vermont, who came to Oklahoma four years ago. Later he was appointed assistant United States attorney under Horace Speed, but resigned when Speed quit the office. When the allotting commission was originally named by Secretary Hitchcock, the place of chief secretary was given to Peck and he then moved from Guthrie to Pawhuska. Peck was an applicant for a place on the commission when its membership was first made up. The places were demanded; however, by various politicians in Kansas and Oklahoma, and in order to settle the matter speedily and get it out of politics, Secretary Hitchcock appointed Col. Shepherd and Dr. McClesney from among his old inspectors. The Osage Indians have made their first drawing of lands, but each Indian citizen is entitled to three drawings, and the second selection will begin on July 8.

DISPUTE ORCHARD

Two Witnesses Tell He Was In Mullen When He Swore He Was At the Sullivan Mill.

Associated Press. Boise, Idaho, June 29.—In the Haywood trial this morning Dominick Flynn of Mullen, Idaho, testified Orchard on April 29, 1899, the day of the explosion at Bunker Hill and the Sullivan Mill, was playing poker in his place. This is the second witness to testify that Orchard was playing poker in Mullen the day he says he helped to light the fuse under the mill at Wardner, eighteen miles distant. Patrick McHale, a bartender in Mullen, followed and testified that he played in the game at Mullen with Orchard on the day in question. McHale declared he is positive Orchard was not at Wardner the day the mill exploded.

"Then," said O'Neal on cross-examination, "Orchard had nothing to fear so far as being mixed up in that matter was concerned?" "No, sir." "Add he had no reason to sacrifice his property and get out?" "No, sir." Pinkerton Methods. BIG RAISE FOR POSTAL CLERKS

Employees in Every Class of the Service Will Share in the Increase of Salaries, Beginning Next Month—Weighing Mail to Fix Contracts With Railroads.

Capital Special.

Washington, June 29.—Under the provisions of the new postoffice law, which goes into effect Monday, a general advance will be made in the salaries of post office clerks, carriers, rural carriers and railway mail clerks. Every clerk and carrier who has been in the service a year will receive an advance of \$100, except the \$400 men, who will get \$500, and the 1,000 employees who will be jumped to \$800. In the future there will be an annual increase of \$100 for every man who has been in a certain grade for a year and has a satisfactory efficiency record, up to \$1,200. The previous limit has been \$1,000.

The total number of clerks to be promoted Monday on an as-soon-basis after they have completed a year's service in the grades in which they are now serving is 19,900. Of these 353 will be advanced from a salary of \$400 to \$500; 822 from \$500 to \$600; 3,534 from \$600 to \$800; 4,026 from \$700 to \$800; 1,995 from \$800 to \$900; 3,473 from \$900 to \$1,000; 2,381 from \$1,000 to \$1,100; 1,227 will be affected. Of this number, 1,810 will be raised from \$800 to \$800; 8,825 from \$850 to \$900; 1,073 from \$900 to \$1,000; 12,500

from \$1,000 to \$1,100.

The aggregate increase to letter carriers and clerks will be in the neighborhood of \$4,500,000.

Rural delivery carriers will also share in the general advance, the new schedule providing a graded increase of \$5,000,000, will involve an aggregate expenditure for rural service during the next fiscal year of about \$35,000,000. The schedule is as follows: Routes of 24 or more offices, \$900; 23 to 24, \$864; 20 to 22, \$810; 18 to 20, \$720; 16 to 18, \$630; 14 to 16, \$540; 12 to 14, \$500; 10 to 12, \$468; 8 to 10, \$432; 6 to 8, \$396.

Every regularly-employed railway mail clerk will receive an increase of \$100 a year after Monday. There will be absolutely no discrimination, as every clerk, regardless of present salary, will get the \$100 monthly advance. Every man gets a slice of the union and every slice is of the same size. Over 15,800 men, who risk their lives in the fitness mail cars will be affected by the advance. It makes the range from \$1,600 to \$1,800; chief clerks in the railway mail service from \$1,600 to \$1,800; assistant superintendents, \$1,800; 2,000; and assistant division superintendents, \$2,000. The weighting of mails, looking to a readjustment of rates paid railroads for carriage, will begin Monday and continue for six months.

SPLIT IN THE THAW FAMILY

Capital Special.

New York, June 29.—Persistent reports to the effect that Mrs. William Thaw and her beautiful artist-model daughter-in-law are not on friendly terms have been circulated of late and developments tend to prove their accuracy. Evelyn Nesbit Thaw, who until lately lived in the Hotel Lorraine, has now taken a house in Park avenue, where she lives alone with a small retinue of servants. Mrs. William Thaw will spend the summer in Pittsburg, but her daughter-in-law has not been invited to share her seclusion. The older woman comes weekly to New York to visit her son in the Tombs but on these occasions does not visit her mother-in-law. The latter sees her husband daily, but her calls are so timed, that she never meets Mrs. William Thaw.

The revelations that Evelyn Nesbit Thaw made in regard to her life during the famous trial of Harry Thaw for the murder of Stanford Whitely, opened Mrs. Thaw's eyes in regard to the character of her son's wife and created so much dislike that she is reported to have declared that she would under no circumstances live under the same roof with her. Only the fact that Thaw is again to be tried prevents the mother from openly ignoring the unfortunate girl.

According to a statement issued by the older Mrs. Thaw, Mr. and Mrs. George L. Carnegie and J. G. Thaw will be present at the conflag trial, and will leave Europe in time to arrive before the beginning of the great legal battle.

PASSING OF THE POLITICAL BOSS

In the Old Acceptance of the Term There Are None Now, But There Are Leaders—Bryan and Roosevelt of the Latter Class—No State Bosses.

Capital Special.

Washington, June 29.—What has become of the old-time political boss? He has disappeared, almost entirely from national politics; and the few of him who are left in state and municipal politics appear to have fallen on evil days.

It is true that President Roosevelt does a good deal of bossing in the republican party, and Mr. Bryan comes pretty near being the dictator of democracy, but they are not bosses of the kind we have in mind. In fact, Roosevelt and Bryan are not bosses at all within the American political meaning of the word. They are leaders: "The boss of the old school generally did not hold office; or, if he had one, it was insignificant compared to the power he wielded. Quay of Pennsylvania was a boss and a United States senator. Mark Hanna was also a senator, but he didn't become one until he had become a boss. Platt of New York was a senator and a boss at the same time. He is still a senator, but his days of political power are gone forever. Thayer Wood, one of the most powerful political bosses this country ever knew, never held public office.

The American acceptance of boss as one who gains and holds political power by manipulation of one kind or another. Patronage generally is his chief weapon of offense and defense, though this was not strikingly so in the case of Wood. It is true that Mr. Roosevelt does not hesitate to resort to a judicious use of patronage as a means of gaining his end both as regards to political and governmental measures. But it would be absurd to say that distribution of patronage had played any considerable part in gaining the bold which Mr. Roosevelt has on his party. Abraham Lincoln used patronage, almost to a scandalous extent, in settling his war measures through congress, but no one ever accused Lincoln of being a political boss," though he was more of a dic-

tor than ever Roosevelt dreamed of being.

It is not hard to understand why bosses have disappeared from the democratic party. It has been so long since the democracy, as a national institution, had any patronage to dispense that they have all starved to death. Since Mr. Bryan came to the front as the democratic leader he has not been able to dictate the appointment of even a country postmaster. Nor has he had any of the other food that bosses habitually feed and fatten on; so it would manifestly be incorrect to term Mr. Bryan a boss. He is a party leader, pure and simple; and American political history probably does not record another man whose leadership was so clean-cut and free from any questionable methods in its attainments.

Most of the state bosses have either been unhinged or are fighting desperately for their existence. New York, one of the most boss-ridden states in the union, there is no man in other party who can claim the distinction of state boss. Odell was the last and his power has waned. In Pennsylvania, Bolso Penrose fell heir to the boss-ship of Quay, but he wasn't able to retain any secure hold on the reins. In Ohio the mantle of Mark Hanna fell on the shoulders of Charles Dick, and now Dick is in dire distress. In his desperate fight against obliteration he has joined forces with Foraker, his ancient enemy, but it is not assured that their combined strength will be able to stem the tide.

And so it goes down, through the list. Wisconsin presents an exception in the case of LaFollette; but he is a boss of a new school, not of the old. He has used patronage and all the political arts to gain and hold his power, but he has done it as a reformer, not as an arbitrary ruler who had only contempt for public opinion. LaFollette might be described as a leader who uses boss methods to further his leadership.

TAMS BIXBY IS OUT OF OFFICE

Capital Special.

Washington, June 29.—Tams Bixby, who has for years been the commissioner of the five civilized tribes and who is known as the Great White Chief of Indian Territory, has at last succeeded in resigning his job and will definitely walk up his Indian service today. He will be succeeded by Indian Inspector J. George Wright, who will assume the reins of his new office Monday. Mr. Wright is a Chicagoan, but has been in the Indian service since 1883 and has a wide knowledge of the redskin and his ways. His salary is doubled by the appointment from \$2,500 to \$5,000 a year.

Mr. Bixby's retiring commissioner has tendered his resignation three times previously, but on each occasion has been persuaded by the Secretary of the Interior to retain the position. He is a newspaper man by profession and a former citizen of Minnesota. It is stated here that he has secured control of the St. Paul Pioneer-Press, the most influential journal of the Minnesota capital, and will take possession next week.

Persons connected with the Indian Bureau in Washington have long been aware that Commissioner Bixby intended to return to the newspaper field on a larger scale than leaving the public service, and the editorial management of the Pioneer Press will afford him that opportunity.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my book on either dyspepsia, the heart or the kidneys. Troubles of the stomach, heart or kidneys are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak stomach nerves—the inside nerves—mean stomach weakness, always. And the heart and kidneys as well, have their controlling or inside nerves. Weaken these nerves and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy ever claiming to treat the "inside nerves." Also for bleeding, hemorrhages, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for sample and free book. Dr. Shoop, Racine, Wis. The Restorative is sold by all dealers.

Notice to Plumbing Contractors. The board of school directors of the school district of McAlester will receive bids for the plumbing of the High School building and six ward buildings now being built.

All bids must be accompanied by a certified check on some national bank for five per cent of the amount of the bid, payable to the order of A. U. Thomas, president. Said checks to be held by the board as a guarantee that the successful bidder will enter into a contract and give bond satisfactory to the board.

Bids will be received up to 2 o'clock p. m. Friday, July 5, 1907. Plans and specifications may be obtained of A. U. Thomas, president, South McAlester, I. T.

The board of directors reserves the right to reject any and all bids. By order of the board,
A. U. THOMAS, president.

MIX THIS AT HOME
The following simple home-made mixture is said to readily relieve and overcome any form of Rheumatism by forcing the kidneys to filter from the blood and system all the uric acid and poisonous waste matter, backing at once such symptoms as backache, weak kidneys and bladder and blood diseases. Try it, as it doesn't cost much to make, and is said to be absolutely harmless to the stomach.

Get the following harmless ingredients from any good pharmacy: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking well in a bottle, and take a teaspoonful after each meal and again at bedtime.

This simple mixture is said to give prompt relief, and there are very few cases of Rheumatism and Kidney trouble it will fail to cure permanently. These are all harmless, over-the-counter, and your druggist should keep them in the prescription department; it will have him order them from the wholesale drug houses for you, rather than fall to use this, if you are afflicted.
