ANARCHISTS WRITE LETTERS TO FRANTZ

Since the Bomb Incident - the Governor of Oklahoma Gets Daily Mail From the Red Revolutionists

Guthrie, Okla., Sept. 29.—Ever since the publication appeared concerning the receipt of an infernal machine through the mails by Governor Frank Frantz, almost every mail has brought to his office letters from various portions of the United States, all of an anarchistic nature, and all containing threats against men of prominence. None have made threats against Frantz himself, but evidently at the present time he has attracted the attention of this class.

Dr. Hugh Scott, the governor's secretary, paid but little attention to these for several days, but their increasing number finally caused him to make known the fact today, when two letters of this kind were received.

One was from Cleveland, Ohio, unsigned, extremely anarchistic in its expressions and threatening principally the lives of John D. Rockefeller and Samuel Gompers.

The other was from Long Beach, Cal., evidently from a harmless crank who claims to have power to cause others to commit crime.

He inclosed newspaper clippings of wrecks, murders, suicides and other fatalities, all of which he claims to have caused others to commit.

THE JAIL

FOLLOWS AN ATTEMPT TO HOLD UP TRAIN WITH A GUN.

Muskogee, I. T., Sept. 29.—With a gun drawn on an engine crew, and the engine racking up and down the railroad tracks, a train full of passengers standing on the line and a negro bully laid out apparently dead, Chas. Whincy caused a disturbance at Okmulgee which has landed him in jail at this place.

When the Frisco train pulled into Weleeka Sam Cliff, a negro, boarded it, and by the time the train reached Okmulgee he had most of the passengers terrorized. Then the engineer struck him a terrible blow which apparently killed the negro.

The engineer and his fireman hastily uncoiled their engine and ran up the tracks several miles to the first switch where the engineer dropped off and took to the woods. When the engine backed down Whincy drew a gun on the engine crew and forced them to make another run back to the place where the engineer dropped off.

Whincy believed the negro was dead and was trying to arrest the engineer. He failed to find him and the engine was again backed down, coupled up with the train and pulled out with another engine.

Later Whincy was arrested for drawing a gun on the trainmen and was brought to jail today.

Correct Repairs

will add many years of service to your jewelry for instance your watch or clock may be out of commission, but a little repair won't cost you much.

Let us do the necessary work.

The Meloyre-Shortess Company The Quality Jewelry Store Established 1895. 102 1/2 N. 4th Ave.

MR. TAFT AT YOKAHAMA

The American Secretary of War Reached Japanese Capital Saturday Morning.

SURPRISED THE TOWN

Passed All Signal Stations Without Being Sighted and Citizens Had to be Notified by Runners, Then the People Got Busy.

Yokohama, Sept. 29.—Secretary Taft arrived here yesterday morning from Seattle September 13, passing all signal stations without being sighted. The various reception committees and the members of the American embassy, who also had come here from Tokio to welcome Mr. Taft, were aroused by runners.

The town was soon awakened, and the bay was crowded with launches displaying American flags and other colors.

SINGS LIKE A FROG.

Actress Recites An Insult to Voice and Battle of Yukon Ensues.

Oklahoma City, September 28.—"You sing like a frog with a cold." "Madam, you will pardon me, I trust, if I venture the assertion that you are a liar."

And then the trouble began. When the echoes of the battle had died away, Mrs. Cleopatra Lens had a broken nose and Miss Janet Phillips had a little marooned coloring around her left eye that was rapidly turning black.

Miss Phillips says she is the leading woman in the Flood Stock company. Mrs. Lens also claims that distinction.

The company was organized in Oklahoma City this fall. It started on its first barn-storming expedition last week.

It was in the dressing room of the opera house at Yukon. Mrs. Lens was engaged in the work of putting a few finishing touches of paint under her eyes, intended to give them that far away look of bottled up sadness, so prettily affected by Katie Emmert in the "Waifs of New York."

Miss Phillips was standing near. She was practicing the expression for which the she-villain draws her salary. In her lurid imagination the curtain was about to arise on the first act.

The boys in the gallery were whispering for the overture and fans were scoldingly whirring in the dress circle.

When Unglacious Kismet, her aspir-

ing reveries were abruptly scandalously disturbed.

"You sing like a frog with a cold, uncalled for, unlooked for, simply donated by the aspirant to stardom of the Flood Stock company."

Miss Phillips gathered up the always handy mirror of the actress and threw it scizzlingly hard and straight for the powdered countenance of her vocal critic. The actor struck true and Mrs. Lens screamed with a broken nose bridge. Great excitement was prevailing in the dressing rooms.

Before assistance could arrive to save Miss Phillips from bodily injury, the infuriated husband of Mrs. Lens, who carries the spears when he is not posing as the deep-lunged Hamlet rushed upon the defenceless girl and struck her a mighty blow upon the left lamp, followed the blow with a rude shove, assisting Miss Phillips through an unstable door, which had fortunately been left partially ajar.

The manager Fred Flood, refused to sympathize with the one who handled the mirror so dexterously and effectively and fired, her, without any ray from the organization.

Miss Phillips arrived in Oklahoma City yesterday afternoon from Yukon. She was possessed of a pillow, a suitcase and some changes—small change.

Her spirits, however, were in high candor, and she greeted her fellow Theatians pleasantly.

"It's back to bacon and eggs in grease for me. As a foot-light luminary, I am unpleasant," she said as she related her tale of the battle at Yukon.

ABSOLUTELY FALSE SAYS GOVERNOR

Late Republican Candidate at Head Of Ticket Denounces as Untrue Statement About Abandonment of Contests.

Guthrie, Sept. 30.—"The statement appearing in the Oklahoma Saturday morning to the effect that I had said republicans have abandoned contests growing out of the recent election is absolutely without foundation."

Governor Frantz gave the above statement to newspapermen who called at his office Saturday. He expressed his opinion of the questionable tactics in his laconic way.

The governor talks freely with the newspaper correspondents at all times but never goes beyond the bounds. The interview in the Oklahoma pa-

per obviously struck him as being "without the pale."

Mr. Frantz will not talk about the political situation for publication. "What is the use?" he answers all questions.

The governor will leave Sunday evening for Keokuk to join the Presidential party on the trip down the Mississippi. He stated that he had not decided how far he would go, whether he would leave Mr. Roosevelt, and the other twenty three governors at Memphis, or continue on the tour and hunt through Louisiana.

COCKTAIL

DEFEATS VICE PRESIDENT FAIRBANKS AS LAY DELEGATE TO CHURCH FUNCTION.

Columbus, Ind., Sept. 29.—Vice President Fairbanks was defeated yesterday for election as lay delegate from Indiana to the quadrennial conference of the Methodist church to be held in Baltimore next May. The vice-president was not present himself, but his name was urged by his friends who assumed that his election would follow by acclamation.

Instead of that it was bitterly opposed by the radical temperance element in the conference who took the ground that electing him would be equivalent to condoning what they regarded as an offense having been serving cocktails and wines at the dinner to President Roosevelt in the Fairbanks home last memorial day.

DEATH WON

YOUNG BLEDSOE MADE A BET AND LOST HIS LIFE BY DROWNING.

Oklahoma City, Sept. 30.—"I'll wager you that I can swim across that lake before you can."

The bet was accepted and the two men plunged in the water, one to reach the further side, the other to be dragged from the depths by his former associates four hours after wards.

The victim of the misplaced wager was A. T. Bledsoe, 22 years of age, a resident of Republic, Mo., who had been a member of a bridge construction gang of the Frisco, engaged in constructing a bridge one mile beyond Jones City.

Near the bridge upon which the men were working is an artificial lake about 12 feet deep and fifty yards wide. Bledsoe about four in the afternoon remarked that he could swim to further end of the lake before his fellow laborer. Both men plunged into the water without removing their clothing, or even their shoes.

It is thought that Bledsoe became cramped and sank without being able to call for assistance.

The body was recovered several hours afterwards by dog hooks and taken to the mortuary where it awaited the arrival of W. H. Reed of the firm of Reed & Mueller, undertakers of this city, who prepared the body for shipment to Republic, Mo., where the parents of the drowned man lived.

Member Bledsoe's brother and also a member of the construction gang, accompanied the body home.

PRESSMEN

REFERENDUM VOTE BEING TAKEN ON QUESTION OF WAGE DEMANDS.

New York, Sept. 29.—The question of a strike of printing pressmen and press feeders in the cities of the United States where recent demands of the union for an eight hour day with increased wages have not been granted is now being decided by a referendum vote of the members of the international printing pressmen's and assistants' union.

The vote was ordered by President George L. Berry of Cincinnati, following the completion of an agreement entered into between the New York locals and the New York printers' league, comprising about 80 firms of employing printers, which becomes operative on Nov. 19 and will last until Jan. 1, 1909.

By the terms of this agreement the employes will work eight hours a day and pressmen will receive an increase in their wages of \$1 a week, making their wages \$4.00. The leaders signed the scale of \$16 per week last March and will not be affected financially.

R. E. Hamilton has returned from a trip to Chickasha, Oklahoma City, Reno and other points. He reports that the liquor interests of Oklahoma are making a scramble to get out of business and nearly all the localities expect to quit on the spot when stretched becomes a certainty. Mr. Hamilton tells of great activity on the New State Fair grounds, over 300 men working on the grounds every day Sundays included.

A Brass Candlestick

For \$1.75

McAlester's Grandest Jewelry Establishment has just received a newly patented style of brass candle stick which uses coal oil to produce the illuminating effect. It is by far the most satisfactory invention of that character in existence today and produces a light of superior brilliancy at a cost of less than 1-8 of a cent for the ten hours which it will burn with one filling.

MONDAY, SEPTEMBER 30, 1907.

OKLAHOMA WILL COME IN.

The Globe-Democrat is one stalwart republican authority which has held at no time any doubt that the President will sign the recently adopted constitution and proclaim statehood.

But has anyone heard from Editor Russell, of the Ardmore Democrat? Anyhow Mr. Bryan could carry Oklahoma next year. But could he carry it four years hence?

The State Capital discusses the question with the remark that there is little consolation in politics anyway. The work ahead of us is the segregation of the surface from the mineral and the sale of the former to the farmer.

Several democratic papers believe that Tom Johnson is re-elected as mayor of Cleveland he will be nominated for the presidency by the democrats. The Commoner is not one of those papers.

Oklahoma's vote to count decisively in the election. Not one person in the United States on the night of November 3, 1906, will ask how Oklahoma voted on that day.

It is understood that Secretary Garfield is decidedly in favor of selling the surface to actual settlers in small tracts and retaining the mineral for the Indian tribes at least until its value can be approximately ascertained.

It is time to begin the earnest agitation of this question in which this immediate section has so great an interest. But has anyone heard from Editor Russell, of the Ardmore Democrat?

The State Capital discusses the question with the remark that there is little consolation in politics anyway. The work ahead of us is the segregation of the surface from the mineral and the sale of the former to the farmer.

Several democratic papers believe that Tom Johnson is re-elected as mayor of Cleveland he will be nominated for the presidency by the democrats. The Commoner is not one of those papers.

How silly all the democratic tales of republican dread about Oklahoma look now! Most of the democratic papers have been saying that the president would refuse to let Oklahoma in, so as to prevent it from giving its seven electoral votes to the democratic candidate in 1908.

It is easy to start a "contest" and very hard to win one without evidence enough to show such frauds as would reverse the results. There is no good to come out of wholesale contests as threatened. Congress will attend to congressional districts.

It is said that Governor Haskell has gotten back into the railroad promoting business already. However as this promotion is an Oklahoma road with no strings to it, it is all right.

Mr. Fairbanks' famous cocktail he is said to have brewed to entertain the president last spring, brought about his defeat as a delegate to a church function.

Physician remarked lately that the telephone was the means of more sickness especially headaches, than almost anything else. He explained that women who could do all of their shopping over the telephone seldom left the house to buy anything.

Physical skill, endurance and composure—these were the things that commanded respect in the wild west. And what mills of violence and torture the old meales were!

To the inventor lengthy list of royal persons who have cultivated more or less skill in the art, must now be added the name of Prince Ernest of Saxe-Meiningen, second son of the reigning duke.

When I opened the door, I found the fat dweller, "my ice man stood there. He looked very meek and humble, to my surprise.

One After the Other. Veterans Tripp (relating his experience) "Yes, you young fellows, twice only have I been surprised. The first time was when a drunken dude gave me a bottle instead of a franc, and the second time was five minutes later when I tried to change the louis and found it was a bad one."

Dustless Streets in England. The streets of Nottingham, England, are sprinkled with water in which a solution of calcium has been dissolved and are therefore dustless.

Take Your Choice. A traveler during his summer in Europe made a list of the different spellings of the word "beefsteak" that he found in France, Germany and Belgium.

True Retic. It is Priscilla's first visit to the country; she has heard the cackling of the hens and connected it with the laying of the eggs.

Army of Long-Since Men. French officials are considering a scheme for providing a landing army of long-since men.

Single to the Case. A sensible girl is apt to request the young man she is engaged to not to spend so much money on her.

Found Ring Lost in Ocean. A gentleman visiting in Scotland, Holyhead, England, six years ago, lost a valuable ring while fishing in the bay.

Mosquitoes and Leprosy. It is now believed that mosquitoes among their other attacks upon human life and health, play an important part in transmitting the germs of leprosy.

The Place to Sleep. Sleeping on the steps of the court house has been interdicted by police. The somnolent ones will have to go on the bench or in the jury box.

Not Altogether Smokeless. Smokeless powder throws off a fume which is clearly discernible through violet glasses.

The gentleman's prize, a beautiful scarf pin, was won by Claude Dawley; the ladies prize, a set of pretty beauty pins, went to Miss Katherine Watt.

The guests were: Misses Hazel Taylor, Mae Welch, Brown of Birmingham, Ala.; Katherine Watt, Ethel Pearson, Grace Stegall, Maud McQuinn, Mrs. Cline Reed, Pearl Guerant and T. B. Davis; Messrs. T. B. Campbell, Fielding Lewis, Claude Dawley, Kent Gay, Brooks Fort, Reuben Chapman, E. A. Brown, C. Brown, Kripatriek and Clark.

Everybody should see how a man is taken into the Elks, Wednesday and Thursday night at Happyland 14 and 15.

FORECAST OF THE WEEK.

Roosevelt, Root and Taft Are to Be Prominent Figures in the Public Eye.

With President Roosevelt on a tour down the Mississippi River, Secretary of State Root, a guest of the Mexican government at many official entertainments, and Secretary Taft the recipient of friendly attentions from the people and officials of Japan, the doings and declarations of the government officials promise to occupy a prominent place in the public attention this week.

A notable event in which the President will participate is the dedication on Monday of the beautiful memorial for President McKinley at Canton, Ohio.

Hearings will be resumed in New York on Thursday in the government's action to dissolve the Standard Oil company.

James A. Moffet, president of the Standard Oil company of Indiana, will appear before the Federal Grand Jury in Chicago on Tuesday to be questioned about the payment of rebates to other companies than his own.

From Canton the President will start on his trip down the Mississippi river. He is scheduled to speak at Keokuk, Iowa, on Tuesday, at St. Louis on Wednesday, at Cairo on Thursday and at Memphis on Friday. The President will then disappear into the Louisiana swamps for a 11 day camp hunting trip.

The course of business and politics prepared by the Standard Oil Co.

Entertainment of Secretary Root will begin in the City of Mexico on Tuesday when he will be the guest of President Diaz at a banquet in the National Palace.

The general convention of the Protestant Episcopal Church will open at Richmond, Va., on Wednesday and continue in session until Oct. 22. There will be a historical meeting on Friday when the Bishop of London will speak.

Delegates from twenty-unions of the Brotherhood of Tailors will meet in New York Saturday to form a national organization independent of the United Garment Workers of America with which the tailors are now allied.

NORTH END.

Born to Mr. and Mrs. L. H. Johnson, a ten-pound boy.

Mr. Charles Tomlinson is on the sick list.

A large number from here have been attending the Pittsburg county fair.

Nearly all property owners along the water main are having water installed in their homes.

The many friends of Mr. Anstey surprised him on his birthday by calling to spend the evening.

The Ladies of the Maccabees held a very interesting meeting Monday night. Three were initiated and the members from Dow agreeably surprised all by bringing fried chicken, sandwiches and coffee with them to regale the members. Come again.

GREER GIVES UP.

Editor of State Capital Sings A Swan Song Editorially.

As it now "looks to a man up a tree" it is statehood under the cyclone bur constitution.

And Davy Crockett or no Davy, the State Capital is coming down to earth, and is going to bear the punishment just as meekly as possible. The State Capital made a good fight and yet believes that it was fighting in the interest of the people as a whole.

But the people's expression at the ballot box, if correctly interpreted, was favorable to a venture under the conditions proposed by the Haskell followers. The expression of the people at the ballot box is law.

And the law must and shall be obeyed.

There's one consolation. There's a million and a half people in the swim with us.

Many were protesters. Many others knew they ought to protest but feared the loss of statehood.

And fear was their master.

But what's the use?

The die is cast, so soon will be.

The only thing for true citizens—True Oklahomans—

To do is to throw aside all thoughts of the past and grasp

The present.

The living present.

Looking only to the glorious future.

The greatest, grandest and, with all its short comings,

The dearest commonwealth of them all.

We love it.

We would fight for it—

And if need be—

We would die for it.

THE START OF A MILLION DOLLAR FIRE.

may be a trifling affair. A match carelessly dropped—a cigar stump thoughtlessly cast aside. Remember that the FIRE INSURANCE companies pay for the smallest blaze. Have you got a policy? That will enable you to recover all losses for damages by fire and wind. Rates are not high. McALESTER TRUST COMPANY, One Second and Grand Aves.

MURDERED

DAUGHTER OF A WELL KNOWN KANSAS FARMER HAS THROAT CUT.

Iola, Kas., Sept. 29.—Miss May Sipp, the 26-year-old daughter of John N. Sipp, a well to do farmer, was found dead in the back yard of the Sipp home at North ten miles from here last night. The body had been cut with a razor and was found lying in a pool of blood.

She died within a few moments from a deep gash in her throat. Her clothes had been torn and her hands cut, indicating that she had been struggling. Her father, John N. Sipp, who lives on a farm ten miles from Iola, has been notified and is on his way to Iola.
